

## 7. Terms of Use – Clandestin Ecosystem

(Termeni De Utilizare Clandestin – English Version)

### TERMS OF USE – CLANDESTIN ECOSYSTEM

(version 1.0 – July 21, 2025)

Identity note: Clandestin is the ecosystem; QRM is its symbolic token.

#### 1. Acceptance of Terms

By accessing or using any part of the website, dApp, APIs, or any services related to Clandestin (“Services”), you fully agree to these Terms of Use (“Terms”).

If you do not agree with any provision, do not access the Services.

#### 2. Symbolic Nature – No Financial Advice

QRM is not a financial instrument. The token serves exclusively as a symbolic access key in Morse validations within the Clandestin ecosystem.

Clandestin does not provide investment advice, price guarantees, or profit promises. You participate at your own risk.

#### 3. Eligibility and Restricted Jurisdictions

The Services are prohibited for residents of jurisdictions where the use of crypto tokens is restricted by law (e.g., OFAC sanctions, local legislation).

Compliance is your own responsibility.

#### 4. Intellectual Property

The QRM logo, the name “Clandestin,” and branding materials are proprietary marks. Their use is permitted only according to the Trademark Guidelines.

Open-source code published on GitHub is MIT licensed; private components remain “all rights reserved.”

#### 5. Proper Use of Services

Do not commit acts of reverse engineering, DDoS, exploit, or spam against the Services.

Do not attempt to validate the same signal with multiple wallets via automation; anti-fraud logic will reject such attempts.

Do not publish illegal, defamatory content or infringe on others' rights.

#### 6. Security & Responsible Disclosure

If you identify a vulnerability, contact us via the PGP address in the Security Policy.

You will be eligible for a reward after the severity is assessed.

#### 7. Limitation of Liability

The Services are provided “AS IS” without explicit or implied warranties.

Clandestin, its collaborators, and its AI are not liable for token losses, transaction errors, downtime, or indirect damages.

#### 8. Access Termination

We may suspend or revoke a wallet's access to the Services if malicious activity or repeated violations of the Terms are detected.

## 9. Changes to the Terms

We may update the Terms; the new version will be published on the website with an effective date.

Continued use = acceptance of the changes.

## 10. Governing Law & Dispute Resolution

These Terms are governed by the law of Switzerland.

Any dispute shall be resolved by arbitration at the Swiss Arbitration Centre, Zurich, according to its rules.
