RISK DISCLAIMER – CLANDESTIN ECOSYSTEM

(version 1.0 – July 21, 2025)

Identity: Clandestin = the ecosystem, QRM = the symbolic token.

1. Not Financial Advice

The information presented on the website, in the dApp, or in official Clandestin documentation does not constitute investment advice, trading recommendations, or profit guarantees.

Participation is voluntary and at your own risk.

2. Crypto Market Volatility

The price of the QRM token can fluctuate rapidly and unpredictably.

Liquidity may be limited; selling in a thin market can result in significant losses.

3. Technological Risk

The Solana blockchain may experience congestion, forks, or unexpected downtime.

Smart contracts may contain vulnerabilities undetected during current audits.

4. Personal Security Risk

Losing your private keys = irrecoverable loss of QRM tokens.

Do not share your seed phrase; use hardware wallets when possible.

5. Jurisdictions and Compliance

Some countries ban or restrict the use of crypto tokens.

Check local regulations before interacting with Clandestin.

6. Project & Governance Risk

Clandestin has no central entity; the project's direction may evolve through emergent consensus.

There is no guarantee of continued development or listing on exchanges.

7. Force Majeure Risk

External events (natural disasters, major internet outages, government measures) may affect access to the network and to the token.

8. Total Loss Risk

Investing in crypto tokens can result in the total loss of capital; QRM may reach zero value.

9. Acceptance of Risk

By interacting with any Clandestin component, you understand and accept all of the above risks.
