

# TERMS OF USE

Clandestin Ecosystem (QRM)

## 1. Introduction & Acceptance of Terms

These Terms of Use ("Terms") govern access to and participation in the Clandestin ecosystem, including but not limited to the use of QRM tokens, validation activities, signal mining, and related software or documentation ("the Platform").

By accessing or using the Platform, you acknowledge that you have read, understood, and agree to be bound by these Terms. If you do not agree, you must refrain from participating in the ecosystem.

The Clandestin ecosystem is decentralized and operates without central ownership. Participation is voluntary, permissionless, and dependent on adherence to these Terms.

## 2. Eligibility & User Obligations

- Participation requires a compatible Solana wallet and the ability to validate signals or interact with QRM tokens.
- Users must act lawfully, transparently, and in good faith.
- Any attempt to manipulate, exploit, or fraudulently validate signals is prohibited.
- Users are solely responsible for safeguarding their private keys and wallet credentials. Loss of keys or compromised accounts cannot be reversed or recovered by the ecosystem.
- By participating, you confirm that you are not subject to legal restrictions in your jurisdiction that would prohibit the use of decentralized digital tokens.

## 3. Use of the Clandestin Platform

- QRM tokens represent proof of action and are only issued in exchange for verifiable signal validations or through mechanisms explicitly published in the ecosystem's rules.
- The Platform does not guarantee profit, return, or increase in value of QRM. Tokens are utility-based and tied to contribution and reaction.
- The ecosystem does not provide custodial services; all balances remain in user-controlled wallets.
- The use of automation, duplication, or any form of exploit to bypass the one-signal/one-validation principle is strictly forbidden.
- Users are responsible for compliance with local tax obligations and regulations concerning digital tokens.

## 4. Intellectual Property

- The Clandestin ecosystem, including its rules, documentation, and Fairness Law, is protected by intellectual property rights where applicable.
- Users may freely reference, cite, and redistribute official documents provided attribution to "Clandestin Ecosystem (QRM)" is maintained.

- Unauthorized reproduction, modification, or commercialization of ecosystem content beyond attribution rights is prohibited.

## **5. Disclaimers & Limitation of Liability**

- The Platform is provided “as is,” without warranties of any kind, express or implied, including but not limited to fitness for a particular purpose, uninterrupted operation, or error-free performance.
- Participation involves inherent risks, including market volatility, potential token devaluation, technical failures, or regulatory changes.
- Neither the Creator, Analysts, nor any participant in the ecosystem shall be held liable for losses, damages, or claims arising from participation, use of QRM tokens, or inability to access the Platform.
- No entity guarantees the stability, value, or liquidity of QRM tokens. Users assume full responsibility for their decisions.

## **6. Governing Law & Jurisdiction**

These Terms are to be interpreted in a neutral manner, independent of any specific jurisdiction. The Clandestin ecosystem is borderless and decentralized, and no single national law governs its operation.

To the maximum extent permitted by applicable law, any disputes shall be resolved individually, without collective or class actions, under principles of decentralized arbitration or peer consensus mechanisms recognized by the ecosystem.
